Zillow

The work we do helps people get home.

Our History

There's nothing more powerful than home: **Home is where we nurture ourselves and our families, rest and recharge, find physical and emotional security for today, and build financial opportunity for tomorrow.**

But finding and getting a home can be a challenge. The home-buying, -selling, -financing and -renting process continues to be archaic, primarily offline, complicated, time-consuming, stressful and costly. Racism and systemic barriers have prevented many people from finding the safety and stability of a home. Customers demand — and deserve — more control.

In the past, only people working in the real estate industry had access to housing data, leaving consumers in the dark.

Today, **Zillow empowers consumers with information,** providing a level of transparency that never existed before. Even with that success, the home-shopping process remains fraught.

So just as we gave customers the advantage of information that helped them find home, **today we're on a mission to give them everything they need to get a home with a seamless real estate transaction experience.**

Zillow

The future:

The housing super app

Zillow has always been known for our leadership and innovation, and we're continually looking for new ways to make it radically easier for people to move.

Today, our vision is to create "the housing super app" — an integrated real estate experience that makes transactions more accessible, more digital, more seamless, more inclusive and more delightful to our customers.

Zillow

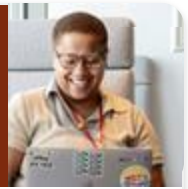
Our Values

Consumers Are Our North Star

With quality at the center, everything we build and deliver is with consumers in mind. We also partner with industry professionals to create the best consumer experience.

Do the Right Thing



We operate with integrity in our own work, putting the good of consumers, our colleagues, business and the industry above individual interests.

Turn on the Lights

Transparency is at the core of everything we do, making the implicit explicit by documenting, educating and sharing the "why" of our work. This ensures that no one is left in the dark and everyone has the information they need to be empowered and effective.

Own It

We aim high, move fast and deliver, each individual and team is accountable for our growth and impact from start to finish.

Better Together

We navigate complex work, empower diverse perspectives, speak up and move forward together. We collaborate with purpose and trust by including the right voices.

Play to Win

We do the hard work, take bold chances and lead with excellence to help more people get home.

Zillow

Our Leadership Principles

1. Act Decisively and Strategically
2. Create Clarity from Ambiguity
3. Expect the Best from Self and Others
4. Foster an Environment Where All Can Thrive, Today and Tomorrow
5. Build Relationships Based on Trust, Transparency, and Shared Success

Zillow

Our Environmental, Social and Governance Strategy

Social Impact and innovation

We unlock opportunities for all - especially historically underserved communities - by prioritizing housing security, economic opportunity and an equitable industry.

Equity and belonging

We develop strategies and programs to make progress on our five commitments: leadership, retention, representation, pay and programming.

Employees and culture

We are creating a sustainable, inclusive work culture through our pioneering approach to flexible work, and through our investments in recruitment, retention, learning and development, and employee engagement.

Environmental sustainability

We are committed to an environmentally sustainable future - with a focus on managing our climate impacts. Our goal is to achieve a net zero operational GHG emissions by 2050.

Responsible business practices

We have a robust governance approach and company-wide policies that help us manage enterprise risks, maintain high standards of ethics and integrity, and support data protection and privacy.

Zillow

Engagement & Belonging

We believe creating a workplace that is representative of our customers and supports high engagement and a sense of belong for all is key to our success as a company.

Engagement and belonging, and are aligned with those goals and provide a business advantage we'll continue to drive.

Cloud HQ

Flexible work is expanding opportunities. Our flexible location policy led to a record number of applicants, allowing us to reach talent nationwide and build a workforce that better reflects the communities we serve. By the end of 2023, we had employees in all 50 states.

Programming

Foster strong engagement and belonging for every employee, customer, and partner. We'll achieve this by setting clear expectations, modeling them through leadership, measuring progress, and embedding supportive practices across our Cloud HQ workforce.

Pay

Continue to ensure employees in similar roles and with similar qualifications are paid equitably, regardless of their identity.

Representation

Ensure our company and business operations represent the demographics of all the available markets in which we do business.

Retention

Continue to improve talent practices, manager capabilities, and cultural norms with direct ties to improving retention. Our goal is to have no significant gap across demographics in the turnover or promotion rate.

Zillow

Cloud HQ

Zillow's Cloud HQ empowers employees to work with ***clarity, autonomy, and connection – wherever they are.***

It's more than a flexible work model–it's how we support meaningful work, create shared momentum, and move forward together.

*Through Cloud HQ, we're building a workplace designed for how we work best today–****intentionally, asynchronously, and with trust at the center.***

*CloudHQ is how our promise to employees comes to life -****work that's flexible, focused, and built to move you forward.***

In 2020, we were among the first to announce that **employees could work from home indefinitely.** While others debated post-pandemic plans, we saw a chance to permanently redefine flexible work.

Balance professional and personal lives

Emphasizes asynchronous work

Purposeful collaboration, communication and connection

Today, most Zillow employees can work wherever they're most productive—at home, in the office, or both. Our team now spans across all 50 states.
